

## INSTRUCTIONS

### *for* Public Works

#### A. NEED FOR THE ACTIVITY.

1. **Proposed use of funds:** Check the box which best describes the activity which CDBG funds will pay for under this funding proposal. If you have more than one public works project, then you must do a separate set of forms for each one.
2. **Project Description:** Provide project description.

Provide a brief narrative about the project. Give information about the exact use of CDBG funds, what the total project will cost, the total number of beneficiaries, and how TIG benefit was determined. All back-up documentation must be provided.

If you are proposing a number of activities or uses, explain each activity that will be paid for with CDBG funds. If the proposed activity is part of a larger project, please describe the whole project and how the CDBG-funded portion fits into that project.

**Remember that the completion of construction and use of the services by the TIG/LTIG beneficiaries must occur by CDBG contract expiration.**

**Example:** The City of XYZ is proposing to use \$500,000 in CDBG funds to finance 200 wastewater lateral hook-ups for TIG households in the city and expansion of the system to serve an outlying subdivision. The hook up are being done in conjunction with a \$5,000,000 RDA/RECDS Water and Sewer loan and a \$430,700 RDA/RECDS grant that is paying for sewer system treatment upgrades required under a cease and desist order currently in effect on the city. The city will also be using CDBG funds to pay for expansion of services into “Need A Lot of Help” subdivision which was surveyed two years ago and documented as 85% TIG and which currently has no collection system and whose residence currently have a large number of septic system failures (see attached photos and income survey information).

3. **Site Control:** Provide description of current site control status, check appropriate box, and attach documentation for readiness points. If the site is not owned or in the public right-of-way, then the applicant must ensure that an “option to purchase” is in place (**not a purchase agreement**) so that a choice-limiting action is not created.
4. **Environmental Clearance:** Name level of NEPA clearance by checking the appropriate box. Attach copy of environmental review record completed to date for readiness points.

Name the estimated level of National Environmental Policy Act (NEPA) clearance for the proposed activity (See Chapter 3 of the 2004 grant management manual for NEPA clearance level determination guidance and/or call your CDBG representative with questions or clarification.). Your project’s schedule and budget should allow for sufficient time and funds to complete environmental clearances prior to commencement of activities. Public works activities typically require a more elaborate level of environmental clearance than other types of community development activities so make sure you have factored in sufficient time to complete the NEPA process properly.

## INSTRUCTIONS

### *for* Public Works

Environmental documents which do not meet CDBG NEPA requirements include: a California Environmental Quality Act (CEQA) review **or** a NEPA environmental review record (ERR) done for another federal funding agency (e.g., USDA-Rural Development). You may use the information in the CEQA and USDA NEPA documents to complete your CDBG NEPA ERR but they cannot be substituted for a properly completed CDBG ERR. If CDBG is part of a larger public works project which is using other State and Federal funds then it is best to use the single combined ERR document provided by Memorandum of Understanding (MOU) between agencies under the California Financing Coordinating Committee and you can access this joint ERR document at: [www.commerce.ca.gov](http://www.commerce.ca.gov). Please contact your CDBG representative for further guidance on your project's ERR.

CDBG staff recommends completing the ERR prior to submitting the CDBG application in order to receive additional readiness points. If any “choice limiting actions” are taken prior to completing the environmental review and obtaining release of CDBG funds, then the state will not allow any CDBG funds to be used on the project. Call your representative with any questions on what constitutes a choice limiting action.

5. **Narrative of Severe Health and Safety Issue Activity will Address:** Provide a brief description of what severe health and safety issue will be solved with implementation of the proposed activity. Examples: The community has a Cease and Desist Order, has contaminated water (attach documentation of water analysis), does not have sufficient sewage treatment capacity, etc.
6. **Description of How Activity will Substantially Eliminate the Current Problem:** Give concrete example of how the proposed project will eliminate the severe health safety problem stated above in number 5. Example: CDBG funds will be used to pay for TIG assessments which will help pay for a new water system.
7. **Description of How the Applicant will Ensure that the Improvements Funded with this Proposal will be Maintained in the Future:** Give detailed description of how infrastructure improvement will be maintained and what local source of funds will pay for the maintenance. Example: Provide a copy of the utility operator's annual operation budget and replacement reserve budget.

## INSTRUCTIONS

### *for* Public Works

8. **Documentation “Quantitative” of Problem:** Check the box which best describes how the local jurisdiction documented the severe health and safety issue which this funding proposal activity will solve. The most effective methods of documentation include:
- a. Cease and desist orders or letters of non-compliance from State and Federal regulatory agencies, letters or documentation from county health or public works agencies listing non-compliance issues, studies from engineers which document failed structural systems or inadequate flows or pressure, letter from local fire marshal or planning director which states that the water system is not adequate for fire flows, etc. All this documentation must describe the direct health and safety impact on TIG residents and all health and safety issues that results from the lack of services or facilities.
  - b. Studies and testing of existing services showing the severity of the health and safety impact to people served by the infrastructure.
9. **Documentation Chart:** Third party documentation of the problem is a critical element of a successful public works application. The applicant should obtain as many third party letters and documentation as possible which describe and discuss the problem being addressed by the proposed activity. The best letters should also “quantify” the problem by including specifics on restricted flows, defective storage treatment facilities, supply deficiencies, and water quality problems. The most competitive applications will contain documentation from an **outside agency** (regulatory agency is best) stating that the problem the project is addressing is severe and health threatening. In particular, for water and sewer projects, documentation should be sought from the Department of Health Services and the State Water Resources Control Board. A type of quantitative documentation not from an outside agency is testing results of water sources for a community, which show excess levels of contaminants above State or Federal standards. Call your CDBG representative with questions or clarifications about documentation which can be used for this section.

## INSTRUCTIONS

### *for* Public Works

#### B. TARGETED INCOME GROUP BENEFIT

1. **Provide Documentation of Target Income Group (TIG) Benefit:** Check the box that indicates how TIG benefit is determined and enter the percentage of TIG benefit into the proper box. All projects must have at least 51% TIG benefit in order to be eligible.
  - a. Income restriction is always done when funds will pay for domestic water or sewer laterals on private property or when funds will pay for a household's utility assessment.
  - b. Limited Clientele will very seldom be used. Contact your CDBG representative if you think this will apply.
  - c. Census data or survey data can be used. HUD low/mod data can be used to document area benefit. If survey data is used then the chart that follows must be completed.

When addressing a neighborhood or community-wide public works problem, benefit is generally provided to all the occupants of a geographic area or all users of the facility/service. Typically, only a portion of the CDBG funds for such an activity benefits TIG households, unless the target area is extremely depressed. **For ranking purposes, TIG benefit of 90 percent or greater will receive the full 300 points under this category.**

Lowered benefit will not necessarily result in an application not being funded, but any activity with less than 80 percent benefit to TIG households is likely to be at a competitive disadvantage with other activities. Therefore, it is especially important when requesting funds for public works activities, to ensure that the application is as competitive as possible for all other activity rating criteria, (i.e. need, leverage, performance)

If an applicant does not feel that its proposed project will serve an area that would result in a relatively high benefit to TIG households, it may wish to structure its public works activity in such a manner that focuses benefit to TIG households. For example, when sewer/water laterals on private property are installed or repaired using CDBG funds, 100 percent benefit can be directed to TIG households by assisting only TIG households with CDBG funds. Applicants can also limit assistance to infrastructure costs on certain streets with high TIG benefit.

If the applicant is working with a project that requires the formation of an assessment district, CDBG funds may be used to pay the assessments for TIG households. If an applicant wishes to use this approach, it is important to establish accurate, current data (through surveys usually) regarding the number and distribution of TIG households in the service area so as to be able to accurately estimate the amount of State CDBG funds that will be required to pay for the TIG assessments.

**Appendix A includes a sample income survey form.** Applicants are advised to evaluate the number of renter-occupied units when estimating both the extent and the likelihood of participation in the program if the application is successful.

## INSTRUCTIONS

### *for* Public Works

#### C. EXPENDITURE MILESTONE CHART

**Note:** The recent regulation change should facilitate use of CDBG funds on public works projects. The regulations now allow applicants to request funds up to \$1,500,000 for a single project or for multiple projects. This would amount to \$500,000 per year for three years of funding. The non-phasing requirement is no longer in place.

At this point in the application, the applicant must give a firm timeline for when the bulk of CDBG funds will be used for the proposed public works project. This chart is divided out into quarters **BUT** applicants only need to write in the amount of funds they anticipate using in each FISCAL year (July 1<sup>st</sup> to June 30th). On the activities portion of the chart, show only activity delivery items; do not show general administration funds. List only the **MAJOR** items involved in completing the project (engineering/architectural completed, construction of project)

For example, during the first 12 months of the grant, final plans and specifications will be completed and paid for with \$250,000 of CDBG funds. In the second year, the labor standards monitor is hired and the project is put out to bid, \$100,000. In year three, the project is in construction \$500,000 and, in year four, the project reaches the completion stage, \$500,000.

Complete the *Expenditure Milestone Chart* to best illustrate the major activities that will be funded by CDBG and other funding agencies during the timeline of the grant activity and indicate when funds will be expended for each major activity.

Applicants must be careful and **not** to spend large amounts of activity funds up-front because if the project is not completed and TIG benefit is not achieved, then **all** activity dollars must be returned.

#### D. SOURCES AND USES

1. **Sources and Uses Form.** Complete this form by showing all the planned funding sources needed to complete the project and what uses or activities under the project that those sources will pay for. **See Appendix E of this application to see what the eligible uses of CDBG funds are for this project.**

Sources. The major funding sources are printed on the form.

The amounts and sources for local and private funding contributions in this chart should match the information provided on the leverage charts in the front part of the application. Make entries here for any State, Federal, or other sources, that you will be using to finance the **entire project**.

Uses. Identify the cost categories applicable to your proposed project and enter the amounts you plan to use. Allocate the amounts across the table to the funds you expect to receive from all the sources listed. This chart should include costs for the **entire project** (not just the CDBG portion). Your cost estimates can assist you in calculating these entries.

<p style="text-align: center;"><b>INSTRUCTIONS</b> <i>for</i> <b>Public Works</b></p>
---

- For the Construction lines, include a factor for Davis-Bacon wages when applicable. All construction costs should include a contingency established in the line item.
- The Equipment category could include items such as outdoor pump equipment.
- Examples of fees that should be listed are commissions to brokers or closing costs for the acquisition of land or a building.
- General administration costs should include staff time for grant administration, such as clearing the grant agreement special conditions and grant reporting.
- Activity delivery costs should include the costs which the State CDBG Program would consider activity delivery.

***Please double-check the totals, in all rows at the far right and at the bottom of all columns, for accuracy.***

## INSTRUCTIONS

### *for* Public Works

#### E. PROGRAM READINESS

Of the 150 points available for capacity, your application may be awarded up to 50 points if you complete and document actions that make the proposed project ready to proceed. The purpose of the Program Readiness Chart is to document this activity's level of readiness for implementation, if awarded. Higher points will be awarded to applicants that clearly document an ability to implement their project as soon as they get awarded and release of CDBG funds. Lower points will be awarded to applicants that do not demonstrate such readiness and who may not have site control or who need additional financing or need to complete project's engineering and design work or need to hold election for assessments or need to complete environmental review. The applicant pool sets the standard and the most ready will receive full points and those less ready will be prorated based on the amount of work remaining before construction can begin.

##### **Program Operator/Administrator:**

- Identify who will be the program operator (the city/county, an outside consultant, another agency, etc.)
- Identify who will be the program administrator and who will monitor for labor standards.
- List documentation that you are submitting to evidence readiness in this category.
- Indicate the page number where the supporting documentation can be found.

***Regardless of who is operating and administering the project, you must include proper documentation (copies of resumes, contracts, sub-recipient agreements) in order to receive points in this category.***

##### **Environmental Clearance Level:**

- Identify all key environmental documentation that has been completed to satisfy National Environmental Policy Act (NEPA) environmental clearance. It is not necessary to submit a finished environmental review record (ERR) and you will get partial points for a partial ERR. However, applicants who submit an inaccurate ERR which will not meet NEPA procedural requirements will not get any points so make sure you do the appropriate process in completing the ERR.

**Note:** Most public works projects involve an Environmental Assessment (with a Finding of No Significant Impact). *Please refer to the CDBG 2003 Grant Management Manual, Chapter 3, for guidance on this issue.*

<p style="text-align: center;"><b>INSTRUCTIONS</b> <i>for</i> <b>Public Works</b></p>
---

**Site Control:**

- Identify all forms of site control that are required for this project and attach the proper documentation (deed of trust, option to purchase, documentation of easements or right of ways) to evidence readiness in this category.

**Special Conditions:**

- Identify all items that you are submitting in order to evidence that the jurisdiction has complied with special conditions (identified in the executed contract, if awarded) that are typically associated with this type of project (anti-displacement plan, program income, reuse plan, documentation of financing in place). *Please contact the CDBG Program Representative for your area if you need further guidance on this issue.*

**Project Financing:**

- Identify all items that you are submitting in order to evidence that the jurisdiction has secured all financing commitments needed (except CDBG funds requested) to complete the entire project.

**Project Readiness:**

- Identify all items that you are submitting in order to evidence that the jurisdiction is ready to implement the project upon CDBG contract award and clearance.

Such items may include:

- Local Government Approvals
- Completed Plans and Specifications (or preliminary plan and/or engineer hired to do final plans)
- Completed Bid Package
- List of pre-approved families to receive lateral installations or assessments

## INSTRUCTIONS

### *for* Public Works

#### F. REQUIRED MAPS

Please provide the requested maps with your application. All maps must show the whole jurisdiction with census boundaries and roads and physical landmarks, so it is clear where the location of the proposed project is located. These maps can be generated using the census web site, [factfinder.census.gov/servlet/thematicmapframesetservlet](http://factfinder.census.gov/servlet/thematicmapframesetservlet).

**NOTE: If you are proposing multiple activities, please provide maps for each activity.**

➤ **Ethnic/TIG Concentration Map**

Based on the applicant's knowledge of the area and available data, provide a legible map of the jurisdiction that shows:

- ☐ The location of concentrations of non-white persons **and** Hispanic persons within the entire jurisdiction, and
- ☐ The location of concentrations of targeted income group families within the entire jurisdiction.

Note: Targeted income group (TIG) data is **different** than poverty data. Most targeted income group data can be obtained by visiting the American Fact Finder website at: [www.factfinder.census.gov](http://www.factfinder.census.gov)

**OR**

<http://www.hud.gov/offices/cpd/systems/census/lowmod/ca/NonEntitledLocalGovernment.xls>

➤ **Location Map**

The location map **must**:

- be legible;
- show the entire jurisdiction; and **must** include:
  - ☐ The census tract number(s) and the boundaries within which CDBG funds will be spent for the proposed activity , and
  - ☐ The census block group number(s) and the boundaries within which CDBG funds will be spent for the proposed activity , and
  - ☐ The general location of the proposed activities, including geographic boundaries of the targeted or service areas covered by the proposed activity.

Note: Most maps can be obtained by visiting the American Fact Finder website at: [www.factfinder.census.gov/servlet/thematicmapframesetservlet](http://www.factfinder.census.gov/servlet/thematicmapframesetservlet).

➤ **Project Site Map**

For site-specific activities, include a project site map which shows:

- ☐ The location and size of existing and proposed infrastructure (road, water, sewer, etc.), if applicable or pertinent, and
- ☐ The location and size of the proposed improvements, if applicable.

**NOTE: Include all required maps at the end of each activity section for which you are applying.**

**NEED for ACTIVITY**  
**Public Works**

**A. NEED FOR ACTIVITY**

1. Identify the proposed uses for the requested CDBG funds. **Check only one.** If you are doing more than one project then you must complete a separate set of forms for each one. *Please see Appendix I of the NOFA for detailed description and limitations of these uses.*

- ☐ Sewer System                      ☐ Water System                      ☐ Flooding and Drainage
- ☐ Laterals (on private property) - water/sewer
- ☐ Assessments: describe for which type of activity- \_\_\_\_\_
- ☐ Other: (describe) \_\_\_\_\_

2. Please provide a brief **description** of the project and/or service to be provided.

3. **Site Control.** If the proposed project involves site acquisition, please answer the following question. Make sure Relocation Checklist in Part B is completed.

- Do you have site control?

☐ Yes, Go to #4                      ☐ No, Continue

- Do you have site control in place for at least 90 days beyond the execution date of the CDBG contract?

☐ Yes. Attach documentation.                      ☐ No. Explain Below.

**Note:** Site acquisition costs incurred prior to the award of a grant, execution of a grant agreement, and satisfaction of any special conditions are **not** reimbursable from the grant.

**NEED for ACTIVITY**  
**Public Works**

--

**NEED for ACTIVITY**  
**Public Works**

4. **Environmental Clearance.** What is the anticipated level of environmental clearance under the National Environmental Policy Act (NEPA)? (**Attach all completed documentation.**)

☐ Exempt (Engineering and Design only)

☐ Environmental Assessment

☐ Rehabilitation Environmental Review  
(RER) - for Private Laterals

Categorically Excluded subject to 58.5  
☐ statutes per 24 CFR Part 58.35, but requires  
no mitigation and converts to exempt.

***Note: An Environmental Assessment is required when the project will increase service and/or capacity by more than 20%.***

5. What **SEVERE** health and safety needs does this activity address?

**NEED for ACTIVITY**  
**Public Works**

6. What is the likelihood that the funds requested will **substantially reduce or eliminate** the problem? Describe how the investment of CDBG funds will directly lead to this elimination or reduction.

7. Describe what steps, if any, the jurisdiction has taken or is planning to take to provide for **long-term operation and maintenance** of the system. (e.g., a rate structure or financing plan to set up replacement or operating reserves, etc.)

**NEED for ACTIVITY**  
**Public Works**

8. How was the health and safety need determined? (Complete the *Health and Safety Need Documentation Chart* that follows and attach appropriate documentation) **Note:** Studies or testing must be done by a qualified agency.

- ☐ Cease and Desist Order or Letters describing the DIRECT health and safety impact from third party or regulatory agency.
- ☐ Documentation of being on a State funding list for programs addressing infrastructure health and safety issues.
- ☐ Study which documents insufficient levels of service or imminent safety threat from system failure.
- ☐ Study or testing which documents potable water contamination in violation of State or Federal standards.
- ☐ Study or documentation of failed septic systems or sewer system failure.
- ☐ Study or documentation of lack of service or capacity and need for expansion of the system.
- ☐ Other:

**Provide explanation-**

**NEED for ACTIVITY**  
**Public Works**

**9. HEALTH and SAFETY NEED DOCUMENTATION CHART**

<b>REQUIRED MAPS</b> <b>Public Works</b>
---

**F. REQUIRED MAPS**

Please provide the requested maps with your application. All maps must be jurisdiction wide and show census boundaries and road and physical properties such that the project location is easily identified. These maps can be generated using the census web site, [factfinder.census.gov/servlet/thematicmapframesetservlet](http://factfinder.census.gov/servlet/thematicmapframesetservlet).

➤ **Ethnic/TIG Concentration Map**

Based on the applicant's knowledge of the area and available data, provide a legible map of the jurisdiction that shows:

- ☐ The location of concentrations of non-white persons **and** Hispanic persons within the entire jurisdiction, and
- ☐ The location of concentrations of targeted income group families within the entire jurisdiction.

**Note:** Targeted income group (TIG) data is different than poverty data. Most targeted income group data can be obtained by visiting the American Fact Finder website at: [www.factfinder.census.gov](http://www.factfinder.census.gov)

**OR**

<http://www.hud.gov/offices/cpd/systems/census/lowmod/ca/NonEntitledLocalGovernment.xls>

➤ **Location Map**

The location map **must**:

- be legible;
- show the entire jurisdiction; and **must** include:
  - ☐ The census tract number(s) and the boundaries within which CDBG funds will be spent for the proposed activity , and
  - ☐ The census block group number(s) and the boundaries within which CDBG funds will be spent for the proposed activity , and
  - ☐ The general location of the proposed activities, including geographic boundaries of the targeted or service areas covered by the proposed activity.

**Note:** Most maps can be obtained by visiting the American Fact Finder website at: [www.factfinder.census.gov/servlet/thematicmapframesetservlet](http://www.factfinder.census.gov/servlet/thematicmapframesetservlet).

➤ **Project Site Map**

For site-specific activities, include a project site map which shows:

- ☐ The location and size of existing and proposed infrastructure (road, water, sewer, etc.), if applicable or pertinent, and
- ☐ The location and size of the proposed improvements, if applicable.

**NOTE:** Include all required maps at the end of each activity section for which you are applying.
